## PERFIL PROFESIONAL

Full Stack Developer with experience in building scalable digital solutions for tech companies and corporate environments. Bilingual in Spanish and English. Specialized in both front-end and back-end development using modern frameworks such as React, Laravel, and Node.js.

I have collaborated on projects for companies like Iberdrola, Telefónica, and Occident, ensuring code quality, performance optimization, and product reliability. Committed to technical excellence and continuous improvement at every stage of development.

## EXPERIENCIA LABORAL

### Software Developer

[\*Lazarus Technology\*](#) – Oct 2022 – Present

- Designed and developed custom web solutions for multiple clients, ensuring quality, performance, and cross-platform compatibility.
- Collaborated directly with companies to create digital products aligned with their brand identity and business goals.
- Contributed to the development of **cybersecurity-related** services and provided user technical support, efficiently managing and resolving incidents..

### IT Technician / Programmer

[\*Dos Mil Palabras\*](#) – Apr 2022 – Sep 2022

- Integrated digital services and content, ensuring consistency and full functionality across web platforms.
- Maintained and continuously improved development processes, optimizing team efficiency.
- Managed user accounts and coordinated tasks across different technical teams.

### Web Developer

SantaMiners – Aug 2021– Dec 2021

- Participated in the visual and technical development of an NFT collection linked to cryptocurrencies.
- Designed and programmed the collection's website, ensuring high performance and usability.  
Developed an online mini-game integrated into the platform, reaching over 10,000 unique users.

### IT Consultant

[\*Alten Spain\*](#) – Mar 2021 – Jul 2021

- Maintained and enhanced corporate applications and databases to improve operational efficiency.
- Worked directly with the Spanish Institute of Oceanography on technology project management and critical systems support.

### **Systems Technician**

[\*Europa Press\*](#) – Mar 2019 – Jul 2019

- Provided IT support at a national and European level, including server, user account, and network equipment administration.
- Performed preventive maintenance and issue resolution in high-volume corporate environments.

## **LANGUAGES**
